Connection

Ans `import java.sql.*;`

```
public class Conn {
    public static boolean checkuser
    (String email, String pass) {
```

```
        boolean st = false;
        try {
```

```
            Class.forName("com.mysql.jdbc.Driver");
            Connection con = DriverManager.getConnection(
                "jdbc:oracle:thin@localhost:1521:xe", "System", "abcd");
```

```
            PreparedStatement ps = con.prepareStatement
                ("select * from login where username = ? and password = ?");
```

```
            ps.setString(1, email);
```

```
            ps.setString(2, pass);
```

```
            ResultSet rs = ps.executeQuery();
            st = rs.next();
```

```
        }
        catch (Exception e) {
```

```
            e.printStackTrace();
```

```
        }
        return st;
```

```
    }
}
```

Java Practical Login

Date. _____
Page No. _____

Ans 1

```
import java.io.*;  
import javax.servlet.*;  
import javax.servlet.http.*;  
import java.sql.*;
```

Public class Login extends HttpServlet

protected void doPost (HttpServletRequest
request, HttpServletResponse
response)

throws ServletException, IOException

{
response.setContentType("text/
html; charset=UTF-8");

PrintWriter out = response.getWriter();

String username = request.getParameter("username");

String pass = request.getParameter("password");

if (Conn.checkUser(username, pass))

{
RequestDispatcher rs = request.
getRequestDispatcher("welcome");

```
rs.forward(request, response);
```

```
}  
else {
```

```
    rs.forward(request, response, "default");
```

```
request.getRequestDispatcher("request.get  
request.getRequestDispatcher("index.  
html");
```

```
rs.include(request, response);
```

```
}  
}  
}
```

welcome.java

Ans 1

```
import java.io.*;
import javax.servlet.*;
import javax.servlet.http.*;
import java.sql.*;
```

```
public class welcome extends HttpServlet
```

```
{
    protected void
```

```
doPost (HttpServletRequest request,
        HttpServletResponse response)
```

```
throws ServletException, IOException
```

```
{
    response.setContentType("text/
    html", Charset.forName("UTF-8"));
```

```
PrintWriter out = response.
    getWriter();
```

```
out.println("welcome");
}
```
