

NAME = Akash Bishit
COURSE = MCA(2A)
Student ID = 20711009

Ques-23 ~~Ans~~

Soln) import java.sql.*;

class JDBC

{

public static void main (String[] args) {

try {

class .name ("com.mysql.jdbc.Driver");

String url = "jdbc:mysql://localhost:3306";

String username = "Akash";

String password = "Bishit";

Connection con = DriverManager.getConnection (url,
username, password);

String q = "insert into bookdetails (Bname, Aname,
no. of pages, price) Values(?, ?, ?, ?)";

Prepared Statement pstmt = con.prepareStatement(q);

```
pstmt.setString(1, "Harry Potter");  
pstmt.setString(2, "J.K. Rowling");  
pstmt.setDouble(3, "300");  
pstmt.setInt(4, "150");
```

```
pstmt.executeUpdate();
```

```
System.out.println("inserted ---");
```

```
con.close();
```
